五、閱讀測驗

Dating is a way to get to know more about the person you like. However, it is not easy to have a successful date. Before you find the courage to ask the person out, read these tips and plan the date carefully.

First, you need to know what kind of person your date is. Is he or she a quiet person or an active one? If your date is a quiet person, going to a movie or visiting a museum can be nice choices.

If both of you are into sports, going ice-skating can be a good idea. Second, talk about the things that you both are interested in. With shared interests, you can become closer and know each other better. If you don't **have** much **in common**, try to talk about school life, favorite music, pets, and so on. However, be sure to listen more than you talk. This shows that you really care about him or her. In addition, you can prepare a gift for your date. It can be a box of chocolate or some flowers. By giving a gift, you can thank your date for his or her company.

With the tips above, you are sure to make your date a success. Now pluck up the courage to ask him or her out and have an unforgettable date!
