五、閱讀測驗

1. It is said that a picture is worth a thousand words. Digital stickers (貼圖) in today's world are the best example. Digital stickers are pictures that are shared online to replace words to communicate thoughts, feelings, or even information. They can be used to bring fun, show different moods, or give more information about something. They are often sent between smartphones or on social networking websites (社群網站).

Digital stickers are especially popular among teenagers. Teenagers today have to spend most of their time studying. It is natural that they don't want to read a lot of words after school when talking with friends. Digital stickers that allow users to share their thoughts and feelings thus became their best choice. What's more, some of these stickers have famous people, cute animals, or cartoon characters (卡通角色) on them, making them even more interesting to young boys and girls.

Digital stickers first started in Japan and have spread across Asian countries quickly because of the increasing use of smartphones and social networking websites. These stickers have also been added to Skype, Facebook and Google+ gradually. Next time you can't put your feelings into words, why not try using digital stickers?

(1) () Digital stickers can be used to do the following things EXCEPT _____.
